👤 Professional Summary

Data Analyst skilled in Python, SQL, Power BI, and statistical analysis. Experienced in data cleaning, EDA, dashboard development, and AI-powered solutions. Strong problem-solving abilities and hands-on exposure through internships and real-world projects.

✂ Technical Skills

Frontend: HTML, CSS, JavaScript, Webcam API

Backend: Python, Flask

Cloud: Cloudinary

Programming: Python, SQL

Tools: Power BI, Excel

Databases: SQLite

Libraries: NumPy, pandas, matplotlib, Seaborn, OpenCV, Face Recognition Library

Core Areas: Data Cleaning, EDA, Modeling, Statistical Analysis

🎓 Education

B.Tech – Artificial Intelligence and Data Science

M.A.M College of Engineering, Tiruchirappalli

Sep 2023 – May 2027

🧰 Internships

Data Analyst Intern – Elevate Labs

Sep 2025 – Nov 2025

- Awarded **Best Performer**.
- Performed data cleaning, preprocessing, and exploratory analysis.
- Built dashboards and reports using Python and PowerBI.

Data Science Intern – EdVedha

Mar 2025 – May 2025

- Built an E-Commerce Product Recommendation System.
- Used collaborative filtering, content-based ML, and scikit-learn.

AI & ML Intern – TechShiksha, Bangalore

Jul 2025

- Worked on NLP, Computer Vision, Azure Cloud.
- Built document intelligence workflows using ML.

🔗 Projects

Founder and Developer – SmartPix (smartpix.co.in)

2025

- Full-stack AI system that matches guest selfies with event photos.
- Implemented face recognition encodings + Cloudinary image storage.
- Built selfie capture UI, QR-based access, and real-time match progress.

- Tech: Python, Flask, HTML, CSS, JavaScript, Cloudinary.

Smart Face Recognition Attendance System

- Built automated attendance using OpenCV and face recognition.
- Enabled real-time detection and secure database logging.

Smart Restaurant Management System

- Developed a QR-code based digital ordering platform for restaurants.
- Enabled real-time order management, kitchen alerts, and status tracking.
- Automated billing, GST calculation, and table-wise restaurant operations.

PlantTalk AI – Multilingual Image-to-Talking Video Generator

- Developed an AI-powered system that transforms plant images into realistic talking videos.
- Enabled users to upload plant images, add custom scripts, and generate lip-synced videos in Tamil and English.
- Integrated image animation, facial feature mapping, text-to-speech, and AI video generation for interactive storytelling.

Certifications

Microsoft – Describe Cloud Computing

Microsoft – Natural Language Processing

Microsoft + LinkedIn – Career Essentials in Generative AI

Google Data Analytics – Coursera

Python for Data Science – NPTEL

Infosys Springboard – Python Basics

Excel Dashboard – NoviTech

AI Face Recognition – LiveWire

Menmozhi AI – Generative AI Participation

Achievements

- Best Performer Award – Elevate Labs (2025)
- Microsoft Bangalore Industrial Visit – TechShiksha
- Research Paper Presenter – AI in Healthcare (M.A.M Conference)

Languages

English (Fluent), Tamil (Fluent), Urdu (Intermediate), Malayalam (Intermediate)
